SEASONAL BEERS

MILK STOUT 14°

A dark top-fermented beer, brewed in English breweries since the beginning of the 20th century. The color of this beer comes from roasted barley, chocolate malt and caramel malt. Milk sugar, or lactose, added in the cooking process is responsible for the characteristic sweetness.

The sweetness of beer is broken by Polish aromatic Lublin hops.

Our Milk Stout is a mild beer with notes of coffee and dark chocolate derived from the beans used.

0,3L / 10,- 0,5L / 15,- 1L / 23,-

HERFSTBOK 16°

Herfstbok is a Dutch style of beer brewed especially for fall and winter. It is a dark copper-colored beer with a full, malty character with notes of toasted bread, caramel and dried fruit. The whole is complemented by a delicate hop bitterness. It comes from the German bock's, but unlike them, it is a top-fermented beer, which gives more fruity aromas.
